

# Community Engagement Grant APPLICATION

**The following captures any open-ended response questions that are found on the application portal. Questions have been numbered as they are found on the application portal.**

## Community Context and Opportunity

1. What community or communities does your organization currently serve? (Include neighborhoods, municipalities, counties, or populations.)
2. Which community(ies) across the 59 local jurisdictions will this project primarily serve? Briefly discuss the environmental, economic, or health burdens experienced by these communities...
5. Briefly describe the community opportunity this project is intended to address. In your response, please describe:
  - a. an overview describing the community as you know it;
  - b. the populations you intend to reach, e.g., Property Owners (Commercial or Residential), disproportionately impacted community members, general population, etc.;
  - c. why these populations would benefit from additional awareness of Power Ahead Colorado programs; and
  - d. any barriers or information gaps this project is intended to address.

---

## Outreach and Engagement Approach

1. Describe primary outreach and engagement activities you will undertake to increase awareness of Power Ahead Colorado programs and how those activities will support the program goals.
2. Describe any approaches that will help ensure activities are culturally sensitive, inclusive, language-accessible, or otherwise responsive to community needs.

# Community Engagement Grant APPLICATION

3. How will you know your project is successful? Share the key performance indicators that you will aim to reach as you accomplish this project.
- 

## Community Reach and Relationships

1. Describe your organization's current relationship with the communities to be reached by this project.
  2. Describe the method, networks, communication channels, trusted messengers you will use to engage these community members.
  3. Describe the factors that position your organization to effectively engage disproportionately impacted community members such as those proposed in your activities.
- 

## Project Feasibility and Budget

1. Describe how your organization will successfully implement this project within the proposed grant period, including any anticipated challenges and how you plan to address them.
  2. If awarded funding, are there any factors that could affect your ability to begin work or complete the project as proposed?
- 

## Organizational Capacity and Qualifications

1. Describe your organization's experience implementing projects similar to the one proposed.
  2. Describe the team and their roles that will implement this project.
